To Whom It May Concern,

It is with sincere gratitude that I write this letter in support of **Peter Nicholls** and the charity **Change the One** for the kindness, generosity and ongoing support they have shown to the children and families within our care.

Our shelter supports vulnerable and disadvantaged children who have faced extremely difficult circumstances in life. Through the support of Change the One, our children have received not only practical assistance, but also hope, encouragement and opportunities for a brighter future.

Peter Nicholls and Change the One have generously provided:

- **Sewing machines, materials and training** to help establish a small cottage industry within our shelter
- Computers – to enable our staff & children to acquire new skills
- Food and essential supplies for the children
- Ongoing encouragement and support focused on long-term sustainability and independence

The sewing machines are especially meaningful to us because they are helping teach valuable life skills to the children and young people in our care. The goal is not simply to provide short-term assistance, but to create opportunities for self-sufficiency and dignity through learning practical skills that may support them in the future.

What we appreciate most about Peter and Change the One is the genuine care and compassion they show toward the people they help. Their support is always given with kindness, respect and a sincere desire to make a lasting difference. In particular that he & his wife personally visit our shelter.

We are also deeply grateful for their philosophy of creating “a hand up, not a handout,” empowering communities and individuals to build a better future for themselves.

On behalf of everyone at Gabay Sa Landas Foundation Inc, I extend our heartfelt thanks to Peter Nicholls and Change the One for their friendship, generosity and commitment to helping vulnerable children and families.

We are proud to be associated with Change the One and would highly recommend supporting the wonderful humanitarian work they continue to do.

With sincere gratitude,

TIFFANY ROSE DEL ROSARIO
